Reasons for Allowance & Allowable Subject Matter

Claims 19 and 20 are allowed.

The following is an examiner's statement of reasons for allowance: The primary reason for allowable subject matter in independent claims 19 and 20 is the combination of elements claimed that make up the claimed store display, namely the specific structure of the unique design of the shelf display apparatus with spaced horizontal and non-linear top member in combination with the shelf and package of articles claimed and the structural arrangement and relationship between the shelf, apparatus and package of articles, wherein the package of articles has a flexible film outer surface, and certain sides of the surface being in contact with the different apparatuses and shelf surface.

Prior art such as previously cited Harris, Heroy, Ingleson, Morrisson, and Radek all teach various forms of shelf dividers, but none with the specific arrangement of elements as claimed by the applicant. Although Harris teaches a closely shaped wire bracket element for attaching to a peg board for supporting various articles, such a bracket could not be combined to be vertically arranged on a shelf about a package of articles for retaining the package in an upright position without hindsight and enlightenment from the applicant's disclosure. Additionally the other cited prior art does not teach such a combination of claimed elements as claimed by the applicant in independent claims 19 and 20 and as noted with Harris, combining or rearranging such prior art to meet the applicant's claim language could only be done with hindsight. Therefore, the indicated claims, 19 and 20, are now allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
